Ohio estimates the fastest growing and most projected job openings will be in health care and social assistance. Ohio Department of Job and Family Services (ODJFS) estimates that job growth between 2018 and 2028 is expected to add over 138,000 jobs, with 685,000 job openings annually. Service producing occupations will increase 2.9% (an addition of 132,600 jobs), goods-producing services will shrink by 1.9% (a decrease of about 4,100 jobs), and self-employment should increase 3.5% by 2028. The health care and social assistance industry will add 94,000 jobs. Professional and technical services industry estimates additional jobs available will show an increase of 15,200 jobs (5.8%). (
